# STATE AND MUNICIPAL BONDS.

Prices marked (\*) are flat prices—that is, the purchaser does not pay accrued interest in addition. In all other case accrued interest must be added to the price.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

### QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks, Prices marked thus (\*) indicate sales.

The dagger (+) prefixed to a price indicates that the figures show the book value.

Notice Change.—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
